MARGARET RIVER

RAY JORDAN 2010 WA WINE GUIDE

91/100 - 2008 Semillon

It's been picked early to retain acid and then given partial barrel fermentation. It's creamy, rich and intense in the mouth with the fine acid carrying the long finish. Has excellent mouth feel with flavours of roasted cashew with citrus overtones.

91/100 - 2008 Chardonnay

There's depth and concentrated intensity in this very smart Chardonnay. Powerful melon and grapefruit flavours laced with a liberal amount of balanced oak. Palate has great texture and mouth feel with acid sustaining the cream stone fruit palate.

90/100 - 2007 Shiraz

Far more depth and concentration of fruit than the lighter 2006 but there is a distinctive cool mint leafiness which may well be regional. Firm and dry palate chock full of savoury ripe dark plum flavours. The cedary oak and firmish tannins support it perfectly. Has plenty of aging potential.

93/100 - 2007 Reserve Cabernet Sauvignon

There is a silky velvety smoothness in here that sets it apart. Behind that is fruit of real power and intensity. The palate balance is exceptional with the fine grained tannins working harmoniously with generous fruit. Has a long pure finish. Very promising wine showing how far this small vineyard has come in a few years.
